

## **SCREEN DEALING BULLETIN NO. 03/00**

### **SYCOM IV Upgrade**

Members are advised that an upgrade to the SYCOM IV system has been scheduled for Saturday, 5 February 2000.

As this upgrade involves changes to the MFWS, SFE staff will require access to Members' offices on Saturday morning. Accordingly, SFE staff will contact each Member to make necessary arrangements.

The upgrade contains fixes to the following problems:-

AOEI - Low on virtual memory issue

AOEI - Market update for inter-commodity spreads

AOEI - An issue with the FIX message when modifying an order under a certain scenario

AOEI - An issue with inter-commodity spread trade confirmation when partially traded

If Members have any further queries, please contact the undersigned on 9256 0415.
