

SCREEN DEALING BULLETIN NO. 09/00

Configuration change to MFWSs

Due to daylight saving ending on 26 March 2000, it will be necessary to make a configuration change to a NT registry setting on Members' MFWSs and AOEIs. This change will be conducted by Exchange staff this weekend, 18 - 19 March.

Members are requested **NOT** to power down workstations on Saturday. Furthermore, SFE staff will be contacting each Member to arrange access to their sites where required.

George Maganas
Screen Dealing Manager
