

## **SCREEN DEALING BULLETIN NO. 42/00**

### **DISRUPTION TO SYCOM TRADING**

As Participants are aware, the resumption of the evening session on 1 December 2000 was delayed by 15 minutes.

This was due to a system issue which was identified whilst attempting to load a new trading day. Accordingly, the system was shut down at 16:45 to perform non-routine maintenance. The system was then available at 17:00 whereby trading resumed at 17:25.

This matter has been referred to the SFE's developers for investigation and resolution.

GEORGE MAGANAS  
TRADING OPERATIONS MANAGER

04 DECEMBER 2000
