

## **SCREEN DEALING BULLETIN NO. 48/00**

### **MARKET DISRUPTION - 22 DECEMBER 2000**

Participants are advised that, following the SYCOM® IV upgrade on 18 December 2000, a system issue was identified and communicated in Screen Dealing Bulletin No. 47/00. As a result of this issue, and to negate the risk of extended SYCOM® downtime, a fix to the Multicast issue was implemented over the weekend of 22 December 2000. Prior to the implementation of the fix, and as a result of the Multicast issue, the SFE was required to delay pre-open and open of all SYCOM® IV products by 20 minutes on 22 December 2000.

The Multicast problem created by the SYCOM® IV upgrade has now been corrected.

The SFE regrets any inconvenience caused to Participants and their clients.

DAVID RAPER  
TRADING OPERATIONS DEPUTY MANAGER
