

Screen Dealing Bulletin No: 28/01

From: SFE Corporation Limited ABN 74 000 299 392

Date of Issue: 22 June 2001

SYCOM® SMS VERSION UPGRADE

Participants are advised that an upgrade to the SYCOM® SMS version will take place on Saturday, 23 June 2001. The upgrade will be performed remotely and will allow for more efficient future remote upgrades.

All terminals switched on over the weekend will be automatically upgraded on 23 June 2001. Terminals which are switched off over the weekend will receive the upgrade once the terminal is switched on. The upgrade will not prevent users from logging on to SYCOM® but may slow down the log on process. Therefore SFE advises that on Monday, 25 June 2001 all Participants be prepared to log on their terminals 30 minutes prior to normal.

Further, all ISDN connected terminals will need to be logged on to the NT markets domain. All Participants using ISDN connections will be contacted prior to Friday, 22 June 2001.

THREE AND TEN YEAR TREASURY BOND OPTION SETTLEMENT

Further to Screen Dealing Bulletin No. 27/01, please be aware that commencing trade date 25 June 2001, SFE will migrate the settlement of Three and Ten Year Treasury Bond Options onto SYCOM®. The effect will be the display of interim and final settlement prices via the SYCOM® market pages.

Should you have any queries, please contact David Raper on 9256-0554 or draper@sfe.com.au
