TRADE CANCELLATIONS - CUT OFF TIME

In order to maintain the timely process of clearing services, Participants are reminded that **only** Trade Cancellations which are approved and allocated, by the clearing back office, prior to 5:00pm will be included in Participant Daily Registration Statement for that trade date. At 5:00pm SFE Clearing will check STACS to see if there are any outstanding trade cancellations waiting to be allocated. Any trade cancellations which are not approved or allocated by 5:00pm will be reflected in clearing reports generated for the following trade date. SFE Clearing will contact the participants involved if a cancellation is to be processed the following trade day.
