MLA /SFE CATTLE FUTURES CONTRACT

A final review of new product maintenance has uncovered a display issue with the MLA/SFE Cattle Futures contract, which will impact trading between 10am and 4pm on 13 August 2002 only.

The issue relates to the visible availability of a March 2002 contract (CTH2) and the absence of a March 2003 contract (CTH3). While the March 2002 contract will be visible to all users it will not be available to trade. A secondary impact will be that intra-commodity spread trading will not be available via the standard spread matrix.

Due to this issue intra-commodity spread trading will be accommodated on the Custom Market between 10am and 4pm on 13 August 2002 only.

All appropriate contract months and intra-commodity spread trading capability will be correctly available as of 5.10pm on 13 August 2002.
