SYCOM INTERFACE AUTOMATIC LOGON UTILITY

Participants are advised of an additional software component that can be installed on SYCOM Interfaces such that, in most circumstances, the SYCOM Interface will automatically log on to SYCOM on Monday mornings or during special recovery circumstances.

The Auto Logon Utility removes the requirement for the user to manually log on the SYCOM Interface. The application periodically performs queries to determine the status of the SYCOM Interface application and the SYCOM System. The Auto Logon Utility writes a log file for support purposes and at most utilises 10MB of disk space.

To enable the installation of the Auto Logon Utility, you should contact Marc Pillay on 9256 0159 or email interface@sfe.com.au. Standard SFE hourly charges will apply for the installation of the Auto Log-on Utility.

Should you have any queries please contact Paul Stonham (Manager, Access and Distribution) on 9256-0152 or pstonham@sfe.com.au

A handwritten signature in black ink, appearing to read 'Paul Stonham', written in a cursive style.
