

Screen Dealing Bulletin No: 014/03

From: SFE Corporation Limited ABN 74 000 299 392

Date of Issue: 02 May 2003

Effective Date: Immediately

NECESSARY SYCOM WORKSTATION AND INTERFACE LIMIT MAINTENANCE

Due to the introduction of the new Individual Share Futures contracts on Tuesday 6th May 2003, maintenance will need to be performed on all Sycom Workstations and Interfaces. This maintenance refers to the 'Limits' that are set on each individual contract in relation to Maximum price changes and Volume per order.

Due to the increase in the number of contracts available to trade through each Sycom terminal, routine maintenance is necessary to ensure that all contract information is kept up to date. This includes listing new contracts and **removing** previously de-listed contracts.

Below is a table that details all previously de-listed contracts since the inception of Sycom IV. These mainly revolve around the de-listing of all NZFOE Equity Options and SFE ISF's which have been involved in Corporate Actions.

If this maintenance is not undertaken the SYCOM terminal will be unable to provide access to the full suite of currently available products.

The following contracts should be removed to ensure each Sycom terminal operates at its optimal level and does not exceed allowed limits.

AA	AB	AC	AI	AO	BA	BH	BI	BR	BY
CE	CF	CH	CN	EF	EN	FF	FS	FZ	GF
IN	LN	NE	NL	NX	PF	PY	QA	SK	SO
