SFE SPI 200™ INTRA-DAY OPTIONS ACCOUNT MAINTENANCE

With the listing of the new Intra-Day Options on the spot quarter month of SFE SPI 200™ Index Futures contracts (AD) on 19th October 2004, Sycom Managers are advised that Account Maintenance will be available as of 12th October 2004.

Below is the new contract code and steps that outline necessary maintenance to be performed for each Account, Sycom Interface and Sycom Workstation. This will ensure order entry is available on the morning of 12th October 2004.

Please be aware of the following new code,

AD – SFE SPI 200™ Intra-Day Options

Step 1 – Editing Accounts

1. Log onto any Workstation as the Generic Firm ID
2. Go to [Account Administration Activities] then [Account Maintenance]. This will list all accounts available for maintenance to be performed.
3. Highlight the necessary account and select [Edit]
4. Scroll down until you find the AD code
5. Click in “Volume Per Order” column and enter required volume
6. Tab to the next column and enter the “Aggregate Net Session” limit
7. Tab to the “Loss” column and enter amount. This will bring up default values in the next column
8. Select [Apply Changes] then [Exit]

Repeat the above steps for all additional accounts required then exit the Account Maintenance window. This maintenance only needs to be performed on one machine.

Step 2 – Adding Limits

Limit maintenance is machine specific and will need to be performed on all necessary Interfaces and Workstations.

1. Log onto all Interfaces and/or Workstations as the Generic Firm ID
2. Once in Sycom go to [Tools] → [Options] → [Limits] → [Add]
3. Highlight the AD code
4. Tick Future and Spread
5. Select 'Ok' in the [Add Limit] window
6. Once the AD has been added, select [Apply] [OK]

PLEASE NOTE:

Step 1 needs only to be done on one workstation.

Step 2 will need to be performed on each workstation that will trade the new AD contract.
