AMENDMENTS TO TRADING RULES RELATING TO THE USE OF SYCOM PASSWORDS

Participants are advised that amendments have been made to the Trading Rules, to become effective on 12 June 2002.

The purpose of the amendments is make it clear that the existing rules which apply in relation to the use of passwords for access to SYCOM workstations also apply to passwords which are used to access SYCOM Interfaces.

In addition, the opportunity has been taken to make some minor changes of an administrative nature - for example to introduce the notion of Participants' SYCOM Managers into the Trading Rules.

A marked up copy of the amendments is set out in the Annexure to this Bulletin.

Should you have any queries please contact David Raper on 9256-0554 or draper@sfe.com.au
