### **PRODUCT DISCLOSURE STATEMENT GUIDE**

The SFE has prepared a Product Disclosure Statement Guide ("PDS Guide") to assist Participants that deal with retail clients to prepare a Product Disclosure Statement. The PDS requirements were introduced by the Financial Services Reform regime. In general, a retail client must receive a PDS from the Participant before acquiring a financial product. The PDS Guide contains disclosure relevant to trading in futures contracts on SFE. The PDS Guide does not contain disclosure which is relevant to specific Participant based costs, e.g. taxation and commissions. The Participant should provide its own disclosure in this regard. Participants should also refer to PS168 issued by the Australian Securities & Investments Commission.

The Guide is now available on the SFE Website. To access the guide please click on the URL below:
