#### **CHANGE TO OFF MARKET TRADE NUMBERING - UPDATE**

On Monday 22 October 2001, Participants were advised in Bulletin 116/01 that EFP's would be entered into STACS and SECUR with fully numerical trade numbers. This has caused a minor issue within an internal system, which has resulted in the incorrect Trade Type being registered against EFP's in the SECUR Mock environment. It should be noted this system will be retired with the full implementation of SECUR.

As a result, **during Mock** an alternative method will be used to register EFP's within the SECUR system using the fully numerical numbering. EFP's, Strip and Block trades will be loaded into SECUR at 3.30pm and 6.30pm.

SFE will continue to enter all "Off-market" trades into STACS with an alphanumeric trade number throughout the day.
