160/06

Date of Issue:

22 December 2006

SECUR DERIVATIVES BOS/RNG & BOPC SOFTWARE UPGRADE

Participants are advised that ASX Limited will be performing an upgrade of the SECUR Derivatives Back Office software in early 2007. This upgrade will affect all SECUR Derivatives Back Office Servers (BOSs) on Remote Network Gateways (RNGs) located at Participant sites and will also require an upgrade of Back Office Processing Client (BOPC) software on client workstations.

SECUR BOS on RNG

The upgrades required to SECUR Derivatives BOS software will be performed by ASX Limited (with the exclusion of Cold Standbys). The indicative schedule for change will be as follows:

Impacted BOS/RNG	Indicative Date	Responsible
Primary BOS on RNG	Weekend 20 th & 21 st January 2007	ASX
Hot Standby BOS on RNG	Weekend 3 rd & 4 th February 2007	ASX
Cold Standby BOS on RNG	TBA	ASX/Participant

SECUR BOPC

In addition to the upgrade of SECUR Derivatives BOS/RNG software, Participants will be required to upgrade all Back Office Processing Client (BOPC) software installed on their client workstations.

The new BOPC software will be distributed to relevant Participant technical contacts in February 2007.

If you have any queries regarding these upgrades, please contact interface@sfe.com.au
