## Market Information Documents: Enhancing Australia's Equity Settlement System; and Central Counterparty (CCP) Harmonisation and Linking

Earlier this year, ASX received and provided a summary of comments on its two Consultation Papers on the Equity Settlement System and CCP Harmonisation. These papers respectively outlined potential enhancements to Australia's equity settlement system, and initiatives to deliver efficiencies to the marketplace through the harmonisation and linking of ASX's CCPs.

ASX has considered the issues, including the input provided by the consultation respondents, and the attached documents outline the way forward on these two important initiatives:

[Delivering Efficiencies to the Marketplace through the Harmonisation and Linking of CCP Activities](#) (PDF 84KB)

More details on the implementation of the resulting changes will be provided in due course.
