Date of Issue: 22 April 2010
Effective Date: 30 April 2010

SFE Clearing Initial Margin Rates for Energy Contracts

SFE Clearing Corporation has reviewed the price volatility of all Energy Futures contracts and has approved the margin changes as shown below.

<i>Contract</i>	<i>Current Price Scanning Range</i>	<i>NEW Price Scanning Range</i>
GXM2010F	\$450.00	\$4,550.00
GXU2010F	\$450.00	\$5,430.00

The adjustment follows SFECC's ongoing review of Energy margin levels given current market volatility and price levels. Clearing Risk Operations monitors margin erosion using the existing margin erosion facility and any significant exposures are limited using the intra day margining process.

The revised margin parameter will be effective for open contracts as at close of business on **Friday 30 April 2010**, impacting margin calls made on **Monday 3 May 2010**.

Initial margin rates for all contracts are available on the ASX website at www.asx.com.au.

Should you have any queries in relation to the above, please contact the Clearing Risk Operations department on 9227 0562 or 9227 0532.
