SFE NOTICE NO.

104/10

Date of Issue: Tuesday, 13 July 2010

Effective Date: Tuesday, 13 July 2010

---

## Wool Futures: Approved Warehouses

### Approved Warehouses

SFE Participants with an interest in wool futures contracts are advised that the list of Approved Warehouses for the delivery of wool has been revised and updated, **effective immediately**.

ASX has undertaken a process to update and consolidate the paperwork with respect to the Deeds for Approved Warehouses for wool futures which continue to be offered on both exchanges (ASX and SFE). As a result of this process, the list of Approved Warehouses has undergone some changes which SFE Participants should note.

SFE Operating Rules Determination 6.70.1 Item 2 has been updated and sets out the "Approved Warehouses" (i.e. the warehouses which ASX has entered into an agreement with to store the wool). The below list of Approved Warehouses is the same for both ASX and SFE contracts.

### Tasmania

Tasmania has been removed as a deliverable location for both ASX and SFE Contracts. This change is **effective immediately** and reflects structural change within the wool industry. Due to declining market activity, quoting a premium or discount for delivery in Tasmania against the SFE Greasy Wool (21 micron) contract has become problematic and has made effective settlement near impossible to facilitate. With this in mind and given there has not been a wool futures delivery in Tasmania in recent memory; ASX has removed Tasmania as an acceptable delivery location for both the ASX and SFE contract offerings.

The list of Approved Warehouses has been updated on the ASX website and can be found at:  
[http://www.asx.com.au/products/futures/wool/delivery\\_information/approved\\_warehouses.htm](http://www.asx.com.au/products/futures/wool/delivery_information/approved_warehouses.htm).
