

ASX 24 NOTICE NO. 137/10

Date of Issue: 25 August 10
Effective Date: 24 August 10

ASX Trade 24 Go Live – 09 October 2010

ASX confirms that it will be proceeding to the technical implementation of ASX Trade 24 on 09 October 2010. For further details on ASX Trade 24 please refer to [SFE Notice 107/10](#) and [SFE Notice 069/10](#) or contact ASX Market Access.

Participant Connectivity Window

On Sunday 10 October 2010 ASX will provide a Participant connectivity window from 09:00 AM to 11:00 AM Sydney time. ASX Trade 24 will accept connections from Participant order systems and allow for data downloads. Order transactions will not be allowed. The ASX 24 Market will be configured in a halted state, to facilitate the connectivity testing.

It is recommended that Participants validate connectivity with the ASX Trade 24 Gateway and ensure that standard synchronisation processes can be performed successfully. Participants may also wish to reconcile trade and order data received as part of the synchronisation process.

The following functionality can be tested during the connectivity window:

- Logon (FIX connection)
- Base Contract Download Request
- Contract Parameter Download Request
- Market State Download Request
- Trade/Order Download Request
- Logoff

Participants will also be able to validate the following configurations via their ASX Trade 24 Gateways under the Generic Firm Manager (GFM) ID:

- Permissioned Accounts
- Configured Shared Order Groups
- Product Limits (Contract Type (FOS), Volume Per Order, Maximum Price Change)

Please note that if your organisation wishes to participate during the Sunday October 10 connectivity window you will need to inform Market Access of the Participant Coordinator details via email to marketaccess@asx.com.au by no later than 5:00 PM on Friday 01 October 2010.

Note: All ASX Trade 24 Gateways (AOEI) will connect to ASX Trade 24 during the connectivity window, irrespective of whether a Participant has indicated involvement in the connectivity window.

Issue Notification

All Participant Coordinators will need to advise Market Access via email when they have completed their connectivity work prior to departing from their premises and in any case by no later than 11:00 AM on Sunday 10 October 2010. An organisation is deemed to confirm that it is not experiencing technical issues unless ASX receives an email to the contrary to Market Access by no later than 11:00 AM on Sunday 10 October 2010.

Should an organisation advise that it is not ready to proceed ASX will make every reasonable effort to assist the organisation to be ready however ASX reserves the right to proceed with the upgrade.

ASX Trade 24 Go-Live Confirmation

If ASX declares the successful implementation of ASX Trade 24 on Sunday 10 October 2010 then ASX will proceed to the production start of ASX Trade 24 on Monday 11 October 2010. ASX expects to confirm via email by no later than 11:30 AM on Sunday 10 October 2010 that it will be proceeding to the production start of ASX Trade 24 on Monday 11 October 2010.

In the unlikely event that the ASX Trade 24 implementation is postponed, ASX will notify all Participant Coordinators by email.

ASX Trade 24 Go-Live Support

ASX Market Access will be providing support from 06:00 AM on Monday 11 October 2010.
